Time and Tide Bell get-together, celebration and planning day

October 3rd 2017 at Trinity buoy Wharf

Objectives of the day are to:

1. Find ways in which people responsible for different bells might be able to help each other (bearing in mind that no-one is getting paid....)
2. Provide inspiration as to exciting ways the bells can be used as the heart of new activity – artistic, educational.....
3. Achieve a better sense both of the strong individuality of each installation **and** the fact that they are part of a network.
4. Come up with many ideas about what needs doing next, including a website upgrade.

Programme – all to take place at [Trinity Buoy Wharf](#)

The wharf is a remarkable place, as well as the home of one of the bells. Give yourself some time to explore it. We will be meeting in the Riverside building.

9.00 – 10.00	Arrive		Fat Boy's Diner or Bow Creek café is open from 8.30...
10.00	Introductions from everyone	All	Explanations from each person or group of where they are with their project
11.00	Sea level and coastal erosion	Speaker TBD	Followed by Q&A.
11.45	Discussion in groups	All	Building on the 10.15 session, groups to explore the issues they face and discuss solutions, focussing on objectives 1 & 2. To extend over lunch, at Bow Creek Café.
2.30	The tourism angle	Speaker TBD	Followed by Q&A
3.15	How to create a network that works for all	Peter	Brief reflections and discussion
3.40	Discussion in groups	All	With a focus on objectives 3 & 4
5.30	Wrap-up, actions	All	
6.00	Close		
8.00	Evening entertainment		Being worked on!

Getting to Trinity Buoy Wharf

The following is taken from the [Trinity Buoy Wharf website](#). The supposed 10 minutes of the walks are slightly optimistic; allow 15 for a more leisurely stroll.

Tube

To Canning Town, Jubilee Line, followed by a 10 min walk. Take left exit from the station towards Bow Creek/ City Island. Outside the station cross the red pedestrian bridge and walk through City Island until you get to a cab tree sculpture [now removed, but heavily cobbled island in the middle of the road remains]. Keep left and follow the blue signs for Trinity Buoy Wharf.

Bus:

Number 277, alighting at the Town Hall on the north side of East India (DLR) station.

DLR:

To East India, followed by a 10 minute walk. Please do not walk over the footbridge at the station, instead use the stairs to the south exit opposite Nisa Convenience Store. Outside of the station turn left and follow the blue signs marked either Trinity Buoy Wharf or the Bird Sanctuary.

Boat:

A designated boat service called the Predator runs from the O2 QEII Pier to Trinity Buoy Wharf Jubilee Pier.

The service is £2 each way and operates Monday to Friday from 5am - 7pm (does not operate between 11am and 11.30am). Please call them upon arrival to either pier on 07947 637 925.

Car:

Follow signs to Leamouth on the A13 or from Aspen Way. At the Leamouth roundabout (Esso Petrol Station), take the Lower Lea Crossing exit. Almost immediately, go left after the bridge. At the T-junction turn right onto Orchard Place and follow the road round to Trinity Buoy Wharf.

Driving isn't recommended, parking is tricky [Peter].

Time and Tide Bells **already installed** and **planned**
